early indiscretion, to recommend him as one, in whose professional skill and integrity, they may sufely confide themselves.

Who have a just appreciation of Truth, and sak them in all centrol if the above is not true? That being granted, we now propose to sak you why is it that internal remedies are always resorted to in the treatment of such diseases? Why give a man a dozen museating doses of medicine for a swelling of the ancie? Why physic a man to death for a few pains? Why give a man pills for an affection of the muscles? Ah, friends, "Be sare to give one pill overy hour" has simile its shousands. Man's stemach was not designed for the purpose of a drug store.

wherever you find it. We offer a medicine which will not devour your stomuch, it will not interfere with your regular food, it will not prevent a healthy assimilation of your digestive apparatus, but it is a powerful external simulant, which opens the pores of the ekin, excites the absorbent system, penetrate the nerves, muscles, and tendons and ligaments of the paris to which it is applied, producing a a free circulation of blood through the parts, atmulating the nerves, revivifying and building up the deadened the sum to which it is applied.

The Chinese Eheumatic Antidote is the only known remedy in the world that will actually and positively restore loss of power and energy to a passived limb, replace the deadened, contracted limb, with lift and activity, remove all nervous obstructions, muscular contractions and distortions, loss of reeling in the extremities. In health, there must be an equilibrium in the nervous and circulatory systems, and this must be brought about by external applications.

We know that our theory is a new one, and will have its memines, yet we appeal to every man's candid independent. We know that our theory is a new one, and will have its enemies, yet we appeal to every man's candid judgment, and ask him if it is not the most reasonable treatment ever offered to man? Doubless you will say, yes. Our plan has been fairly tested, and given miversul; satisfaction. In the treatment of the discusse for which it is recommended, it is creating a perfect revolution.

Neuralgic Pains, a staking at the stomach, palp tation of the heart, sick and nervous headache, cold teet, pains in the bowels and stom-ach, colle, &c., can all be immediately cared by rubbing the external surface with a small portion of this highly concentrated medicinal compound. Take Particular Notice.—There is a habit which boys teach each other at the academy or college—a habit indulged in when by themselves, in solitade, growing up with the boy to manhood, and which, if not abandoned in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who indulge in this permicious practice are aware of the cousequences, until they had the nervous system is shuttered, feel strange and unaccountable feelings, vague fears in the mind. MEDICAL.

DR. MORSE'S INVIGORATING CORDIAL, a Phenomenous in Medicine-Health Restored and Life Lengthened, by DR. MORSE'S INVIGORATING ELIXIE OR CORDIAL.

For centuries, Medical science has been runsacting the regelable and inneral kingdoms, in search of sementing that should restore the lost or decaying energies of the cervous mid muscular systems, which all selimetants, tonics, and marcotics had herotofore entailed. That something has been found. It is a regelable production, brought from the merits deserts of Arab a the Stony, by the celebrated Professor M. Morse, well known as a distinguished member of the ineding scientific societies of the Old World, and equally distinguished as a physician, a chemist, and a traveler. The juties of little beet concentrated and combined with other regetable medicinal axidacts, are now producing results heretofore unheard of, in this or any other country. At first the properties attributed to Prof. MORSE'S INVIGORATING SLIKE OR COR. DIAL were deemed fabulous. The public often deceived could not believe the simple and sublime traths amounced by the discoverer. But facts, undeniable facts attested by witnesses of the highest class and character, are now triumphing over all doubts. The Brixia remedies, in all cases, the deplorable evils
arising from a misuse or abuse of the various organs which
make up the wenderful machine called man. It restores to

the re-production of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended
as the only means of communicating that energy which is
necessary to the proper enjoyment of all the natural appetites, as well as the higher meatal attributes. Its beneficial
effects are not confined to either saver to any age. The feeble girl, the alling wife, the listless, ernevated youth, the overworn man of business, the victim of nervous depression, the
individual suffering from general debility, or from the
weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator.—
To those who have a predisposition to paralysis it will prove
a complete and unfailing saleguard against that terrible maiady. There are many, perhaps, who have so triffed with
their constitutions, that they think themselves beyond the
reach of medicine. Let not even these despair. The Klinir

A Great Medicine for Females,

The unparalleled effects of this great restorative, in all complaints incident to females, mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousands of invigorants concoted—all purporting to be specified in the various diseases and derangements to which the delicate formation of woman render hor limble.—The result has heretofore been uniform. These nostrums have indeed imparted a momentary vivacity to the nervous system, a transient and delusive vigor to the muscles, but this fash of relief has been succeeded by a depression and prostration greater than before, and the end has too often been unterly to paralyze the recuperative power of the nerves and the vital organization, and finelly to destroy the unappy patient. Is presented as a phenomena in the materia medica hitherto unheard of—a stimulant without a resection.

The herb which forms its main ingredient, has been admitted by all the great medical and pharmacentical institutions of Europe to be in this respect and generis. Dr. Morse, whose name is an undisputed authority in sciences, discorered the production in Arabia, where his attention was excited by the wonderfully invigorating effects it produced upon the natures. In fact the wonderful power of endurance, the examisless vigor exhibited by the Arab, of both serves, in their desert pigrimages, is attributable to the use of this vitalizing herb.

These are some of the and and melancholy effects produced
by early habits of youth, viz. weakness of the back and

symptoms of consumption, &c.

Here the disease of Fernales, is one of the most extraordinary and valuable medicines now extant. It is preparted by Dr. Thos. Posemby, of New York, an Alopathic Physician, who has practiced successfully in Utica, New York, forty years. Its discovery was the re-ult of chance, while experimenting on remodies for a totally different train of disorders. For s x years it has been tested in every part of the world. In the State of Tennessee it has performed wonderful cures. I will not say that it has been successful in every case, but when it does not cure it neverfails to relieve the most distressing symptoms. I am permitted by William Parkes, Esq. of Lawrenceburg, to state that in a few weeks it completely cured his negro girl, who had been for five years in the hands of physicians who had not been able to relieve her.

LETTERS FROM HIGH AUTHORITY.

Hon J. J. Middleton, of Waccamaw, S. C., writes us under date of May, 2d, 1853, that Railway's Renovating Resolvent cured one of his negroes, on his plantation at Besufort, of a Scrotulous complaint, of many years' standing. The poor fellow was a disgusting object of pity; he was a moving mass of sores. The other negroes could not remain in the same place with him. He was entirely cured by Radway's Renovating Resolvent, and is now at work upon the plantation. To the people of S. C. Mr. Middleton is well known, and to the political world Mr. Middleton is no stranger.

THE GREAT COUGH REMEDY!

READER! have you a Cough, which you are neglecting, under the idea that it is only a common cold, that it will soon "wear itself out?" Let a friend tell you, in all kindness, what will soon be the probable result.

In a short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp darting pairs. Then a dry, backing Cough will set in, and when you ruise anything it will be a thick and yellowish, or white frothy matter, streaked, perhaps, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will scon have Hectic Fever, Uold Chills, Night Sweats, Coptous Expectoration, and thou Great Prostration. If you still neglect yourself, a few weeks or months will see you consigned to the grave, leaving your friends to mourn how rapidly CONSUMPTION did its work, and burried you away.—Friend! have you no cause to be alarmed? In the above sketch you may see us in a glass, how every case of Consumption progresses, with more or less raniality, to a fatal termination. Of all the Thousands and Millions whom this great Destroyer has gathered to the tomb, every single case began with a Cold! If this had been attended to, all might have been well but, being neglected, under the fatal delusion that it would "wear itself," it transferred its deadly action to the substance of the Lungs, exciting there the formation of tubercles. Another, and another cold added fuel to the flame, until these tubercles began to soften and suppurate eaving, by their ulceration, great cavities in the Lungs. At his crusis, the disease is very difficult of cure, and oftentimes acrost the batter or worst stage, this medicine will oftentimes acrost the disease, or check its progress, and will always make the patient more comfortavic, and prolong his life, and its therefore worthy of a trial,—but in its neigheat or forming periods, Consumption is as curshle as any other disease, and "ID.
